*Greetings,*

**Many of you** are familiar with the Humboldt Bay Area Bike Map, the area's guide to cycling routes and related safety information. Since its publication in 2000, roads and transit stops have changed, more bike facilities exist, and safety and public health issues need to be updated & included. Further, the digital files themselves need updating. \$10,000 got us 10,000 copies, which are just about sold out.

**The Natural Resources Services Division** of RCAA created the original bike map and is initiating an effort to update it. Depending on funds raised from local supporters, a newer, updated version will be on the shelves in 2009 - a public service for all the bicycling and recreation enthusiasts living in & visiting our community.

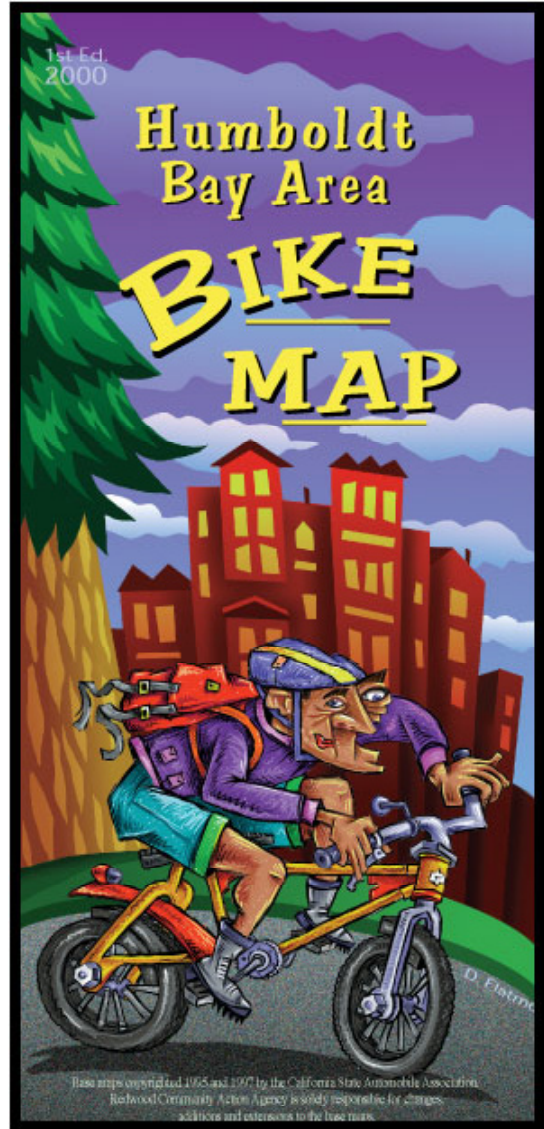

*Local support made the last map a reality...*

**Will your organization be able to help in the development of the 2009 bike map?**

Any bit helps! Here's how we can acknowledge your support on the new Map:

- \$100-\$250 = Agency name & 10 complimentary Bike Maps
- \$250-\$300 = Agency name/logo (small) & 25 complimentary Bike Maps
- \$300-\$500 = Agency name/logo (large) & 50 complimentary Bike Maps
- \$500-\$750 = Agency name/logo (large), one line message & 100 complimentary Bike Maps
- \$750+ = Agency name/logo (large), two line message & 150 complimentary Bike Maps

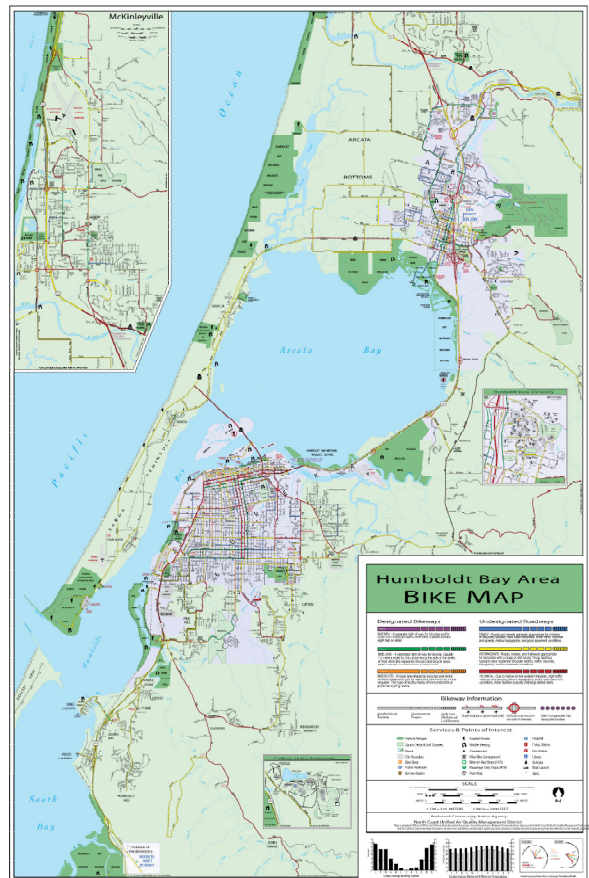

*The total amount of funds raised will dictate the amount of new graphics, illustrations and/or GIS layers in the Bike Map in addition to the necessary updates and 5,000 printed copies.*
